## ALUMINIUM DISC

### 产品用途 Applications :

铝圆片具有良好的机械加工性能，拉伸和旋压性能优于其他金属材料，且质量轻便、光泽明亮、价格低廉，因此广泛应用于灯具、厨具及交通指示牌等领域。

Aluminium disc boasts excellent mechanical processing property, whose tensile and spinning performance is better than other metal materials. Because of its lower density and cost, this shiny material is widely applied to many fields like lamps, cookware, traffic signs, etc.

### 生产能力 Production Capacity :

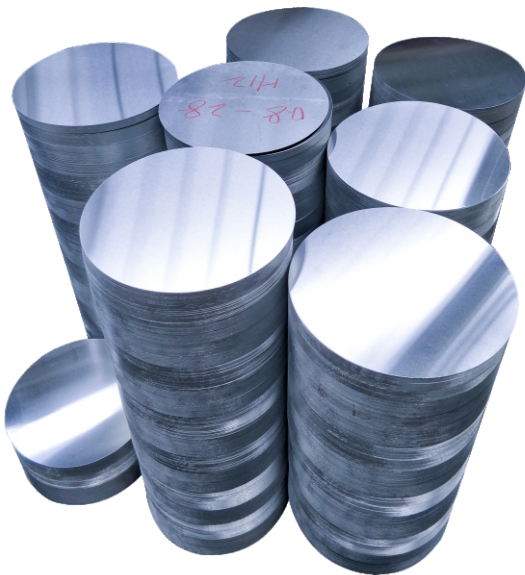

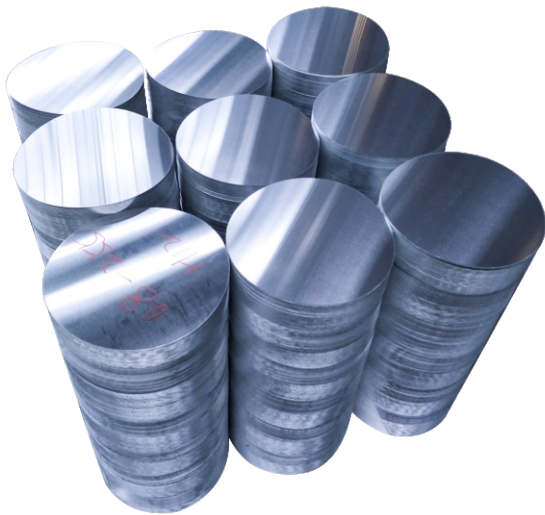

我们现有先进的自动偏摆数控冲床2台，剪圆机1台，月生产能力可达1000吨。

We have two advanced automatic offset CNC punching machines and one disc-shearing machine. Highest monthly capacity could be 1000MT.

### 供货尺寸范围 Dimensions Available :

直径100~1500mm，厚度0.2~6mm。

100~1500mm OD and 0.2~6mm thick.
